

Appendix: Pivot Tables

Supporting data behind the Superstore Sales & Profit Analysis

Prepared by: Gulay Keske Aksoy

Source: superstore-analysis.ipynb (Sample Superstore, 9,994 orders)

Purpose: raw pivot totals behind every figure quoted in the main report

Every table below is generated directly from the notebook's groupby aggregations and matches the numbers cited in the main report and README exactly. Negative values are shown in red.

A. Category Summary

Technology has both the highest sales and the highest profit, confirming it as the strongest category.

Furniture's sales are comparable to the other two categories but its margin is far thinner (2.49% vs. ~17%).

Category	Sales	Profit	Margin %
Furniture	\$741,999.80	\$18,451.27	2.49%
Office Supplies	\$719,047.03	\$122,490.80	17.04%
Technology	\$836,154.03	\$145,454.95	17.40%
Grand Total	\$2,297,200.86	\$286,397.02	12.47%

All three categories are profitable at the category level — no category operates at a net loss overall.

B. Sub-Category Summary (sorted by profit)

The data shows **three** unprofitable sub-categories, not two: **Tables** (the one large, real loss), **Bookcases**, and **Supplies** (both small losses). Every other sub-category, including the rest of Furniture, is profitable.

Sub-Category	Sales	Profit
Tables	\$206,965.53	\$-17,725.48
Bookcases	\$114,880.00	\$-3,472.56
Supplies	\$46,673.54	\$-1,189.10
Fasteners	\$3,024.28	\$949.52
Machines	\$189,238.63	\$3,384.76
Labels	\$12,486.31	\$5,546.25
Art	\$27,118.79	\$6,527.79
Envelopes	\$16,476.40	\$6,964.18
Furnishings	\$91,705.16	\$13,059.14
Appliances	\$107,532.16	\$18,138.01
Storage	\$223,843.61	\$21,278.83
Chairs	\$328,449.10	\$26,590.17
Binders	\$203,412.73	\$30,221.76
Paper	\$78,479.21	\$34,053.57
Accessories	\$167,380.32	\$41,936.64
Phones	\$330,007.05	\$44,515.73
Copiers	\$149,528.03	\$55,617.82

C. Regional Summary

West leads in both sales and profit. South has the lowest sales but is not the lowest in profit — Central is, despite outselling South. That gap is the signal that Central has a margin/discounting issue rather than a demand issue.

Region	Sales	Profit
West	\$725,457.82	\$108,418.45
East	\$678,781.24	\$91,522.78
Central	\$501,239.89	\$39,706.36
South	\$391,721.91	\$46,749.43

D. Segment Summary

Consumer is the largest segment by a wide margin in both sales and profit, followed by Corporate and Home Office.

Segment	Sales	Profit
Consumer	\$1,161,401.34	\$134,119.21
Corporate	\$706,146.37	\$91,979.13
Home Office	\$429,653.15	\$60,298.68

E. Order Line Count by Category

Row counts only — this reflects how many order lines fall in each category, not profitability. Office Supplies has the most line items because it covers many low-ticket, high-frequency products (paper, binders, etc.), which is a volume pattern, not a loss pattern.

Category	Order Lines
Furniture	2,121
Office Supplies	6,026
Technology	1,847
Grand Total	9,994
